Action Taken Report on Feedback

1. The Student Induction Programme should have sessions to explain the Course Outcomes more elaborately than before.
2. More stress is given to explain the content of the course via online platforms. New apps like Teachmint have been introduced to the staff to rectify the problems related to network issues. Classes were recorded and uploaded in the Youtube channel to make the learners conveniently follow the topics.
3. The list for new books and journals were given to the library especially after the loss of books and materials in the flood that inundated the college including the library building.
4. The classrooms and laboratories that were destroyed in the flood have seen the completion of the renovation by this year.
5. New state-of-the-art toilet facilities were built for the students.
6. Some of the students have faced the difficulty of inaccessibility to gadgets to attend the classes through the online mode. The college has donated mobile phones and laptops for some of the needy students.
7. Decision was taken to bring more placement drives to the college as part of empowering the women students of the college. Students are motivated to do internships outside.
8. The college plans to offer internship programmes for the students of the college to increase the employability skills of the students.
9. More programmes have been organised in the online mode to compensate for the loss of students owing to the pandemic situation.
10. Fee reduction was given to several students in the college, realising the financial stress their family had faced.
