

REPORT 2017-18

The students had certain complaints regarding classroom facilities. They suggested that they like to have more virtual classes for effective comprehension. The Principal along with the Committee members discussed this matter and Principal put forward an idea of applying for MP fund so that we can have more smart class rooms in the college.

REPORT 2018-19

There are some complaints regarding toilet facilities. Students had reported that they are in need of more number of neat toilets. The committee in the presence of Principal discussed this issue and came to a conclusion that if the students are responsible they can enjoy neat toilets as they are cleaned everyday by the attendants. Principal opined that she will remind the matter to the students when she address them neat. Principal also suggested that the ground floor toilets will be renovated during the summer holidays and it will be a solution for this matter.

REPORT 2020-21

We have an active Grievance redressal cell functioning in the college. The Principal along with the teachers in-charge addresses the various complaints of the students, take up the issues and assure them confidence. Covid inflicted significant trouble on the students and the students expressed their concern regarding the conveyance, especially because bus journey becomes risky as the covid is spreading fast. The difficulty of the students was dealt with due understanding and in times of difficulty online classes also were arranged as per the directions from the Government. The students also demanded a change from uniform to colour dress. The Principal along with the cell members discouraged the interest of the students, taking into consideration the economic status and academic needs of the majority group of students. The students were made aware of the moral responsibility of the citizens and the need for the empathetic understanding towards weaker sections of the humanity.
