CRITERION II - TEACHING - LEARNING & EVALUATION

COMMERCE

2.5.1 Mechanism of internal assessment is transparent and robust in terms of frequency and mode

The students are evaluated continuously through internal assessment. The 20% of the total marks in each course are for internal examinations. The marks secured by the students make up a part of their total marks.

INTERNAL ASSESSMENT

The internal assessment of the students shall be based on a predetermined transparency system involving written internal examinations, assignment, seminar and attendance. The marks are given to the students based on the content, method of presentation and their orientation to research aptitude.

The evaluation process is made in a convenient and approachable manner. In order to ensure transparency, the internal assessment marks awarded to the students in each course in a semester shall be notified on the notice board at least one week before commencement of external examination. The faculties also maintain an academic record for each student.

The internal evaluation marks for test paper, seminars, assignments and classroom participation are split up based on the range of academic performance and their attendance.

Internal Examination:

The internal examinations are conducted on a continuous basis for every course.

Seminar:

Every student is encouraged to take up seminars in every subject. The students take seminars on the topic that have already been allotted. Students are free to choose any method in the seminar to showcase their teaching abilities. They shall also use slide

presentation for the same. After each student's seminar, an interactive session with the students is carried out. These seminars are evaluated and are awarded a mark out of 4.

Assignment:

In order to boost up the writing capacity of students, they are allotted assignments on various relevant topics of every subject. The students are instructed to write up the assignments on their own words. They are awarded a mark out of 4 and are handed over to the students after evaluation, so that they can prepare the same along with the syllabus.

Classroom Participation

Classroom participation is an effective way for assessing overall performance of students. The department follows university guidelines for evaluating the students . The students with attendance above 85% are awarded 4 marks and those with CRP ranging from 75% to 85% are given 2 marks . only 1 mark is given to those students with attendance ranging between 50% to 75%

Evaluation report

On the basis of internal assessment, an evaluation report is prepared and communicated to students. The students are categorised into advanced learners , medium learners , and slow learners on account of their academic performance . The department ensures to provide special care to improve the slow learners and medium learners, and also give special recognition to advanced learners.

The split up of marks of Test Paper and Classroom Participation (CRP) for Internal Evaluation of different admissions are as follows:

ZOOLOGY

2.5.1 Details of "Mechanism of internal assessment is transparent and robust in terms of frequency and mode"

The Continuous Internal Evaluative mechanism of the institution is transparently robust. University academic calendar is followed in evaluative mechanism of the Department. Each faculty member in the department plans the lessons for first and second internal examinations in the department meeting. The faculty in charge of each paper plans and execute the frequency and mode of internal assessment following the university syllabus and directions from the internal examination cell. The continuous evaluative assessment of the students is based on student's attendance, performance in the internal test papers, student seminars and assignments. The grades are published after the scrutiny of the head of the department and Principal. Students get opportunity to verify the internal grades. Thus transparency is ensured.
