Bridge Course

The Department of Economics, Sacred Heart College, is one of five colleges under the University of Calicut that offers the 'Mathematical Tools for Economics' as a complementary course for the BA Economics programme. The core papers for BA Economics 'Quantitative Methods for Economic Analysis' and 'Mathematical Economics' also have mathematical content. Though this is an advantage for the students undergoing the programme, there is a challenge involved. Most of the students who opt for the BA Economics Programme are those who opted for the Humanities group for higher secondary, for which Mathematics is not offered as a subject. Besides, it is a general trend that students who do not like Mathematics opt for the humanities group for higher secondary. The department felt the need to offer a bridge course in Basic Mathematics for first-year degree students. The objective of the bridge course is to refresh the basic mathematics, arithmetic and algebra the student has studied at the school level and to develop the adequate background skill in mathematics to pursue the complimentary course 'Mathematical Tools for Economics' and also the core course 'Quantitative Methods for Economic Analysis. The A bridge course for the first-year students is conducted every year during the first two semesters outside the regular working hours. A syllabus is framed for the bridge course by the Department of Economics.

Syllabus of the bridge course to be offered to I BA students

Objective: To refresh the basic mathematics, arithmetic and algebra the student has studied at the school level and to develop the adequate background skill in mathematics.
