

2020-2021

NATIONAL WEBINAR ON “BLOCKCHAIN TECHNOLOGY”

Organised by Department of Computer Science on 26.02.2021

The department organised a National Webinar on “Blockchain Technology” on 26-02-2021 which is a relevant research area in the field of computer science. Dr V. Karthikeyani, Assistant Professor in Computer Science, Government Arts and Science College, Komarapalayam, Tamilnadu, was the resource person. Dr.Sr. Miranto gave the welcome address. Blockchain technology is a structure that stores transactional records, also known as the block, of the public in several databases, known as the “chain,” in a network connected through peer-to-peer nodes. Typically, this storage is referred to as a 'digital ledger. It is defined as a decentralised, distributed ledger that records the provenance of a digital asset. By inherent design, the data on a blockchain is unable to be modified, which makes it a legitimate disruptor for industries like payments, cybersecurity and healthcare '.Dr.V.Karthikeyani also talked about the increasing technology and about cryptocurrency.The session lasted for more than one hour and the participants were given certificates .

About the college

Sacred Heart College offers a conducive ambience for achieving academic excellence and for nurturing creativity. The college secured the topmost grade with A+, among the non-autonomous colleges in Kerala in the re-accreditation by NAAC. Upholding the motto "Lux in Tenebris Lucet" (Light shines in Darkness), the college has been emerging as a leading institution in higher education both in academic and non academic ventures.

About the Department

From 2002, The Computer Science Department seeks to become a competitive doctoral-granting department and to expand its depth and breadth in a research with the study of applied computing. Encourage students to become self motivated, problem solving, individuals who can find and understand the knowledge needed to be successful in profession.

SCREENSHOT OF THE SESSION

Dr. Karthikeyani V is presenting

What is Blockchain?

- Blockchain is Bitcoin
- Blockchain is the technology behind Bitcoin.
- Bitcoin is the digital token, and blockchain is the ledger that keeps track of who owns the digital tokens.
- You can't have Bitcoin without blockchain, but you can have blockchain without Bitcoin.
- It is a revolution bigger than internet!?
- Blockchain's affect is compared to WWW
- It may ruin banks!?
- A blockchain has technical, business and legal definitions.
