## MERCY HOME

2018-2019

An Extension activity organized by Dept. of Mathematics

Mercy Home is an orphanage for girls of age 5 -18 years. Children are identified and assigned by the Child Welfare Committee and District Child Protection Officer of Kerala State as per the rules and regulations mentioned in Juvenile Justice Act 2015. The intention of our visits to this place was to imbibe social commitment in our students. A group of 10 volunteers was formed to organize the activities of each week and on every weekend, a group of 7 students spent some quality time with the residents. The students also provided a helping hand in teaching them. We also made sure these girls get a chance to celebrate occasions like Christmas like others and several games and cake cutting was arranged. These efforts made the students to have a positive outlook towards the society.
