

FREE TUITION

MERCY HOME

2019-2020

An Extension Activity organised by Department of Mathematics

Mercy Home is an orphanage for girls of age 5 -18 years. Children are identified and assigned by the Child Welfare Committee and District Child Protection Officer of Kerala State as per the rules and regulations mentioned in Juvenile Justice Act 2015. The intention of our visits to this place was to imbibe social commitment in our students and at the same time, bringing out a positive change in these lives. A group of 10 volunteers from different classes was formed to organize the activities of each week and on every weekend, a group of 5 students spent some quality time with the residents. The students were keen to help the girls with Mathematics and other subjects. These activities were continued throughout the academic year. We also celebrated Christmas with them to make sure they get to enjoy such occasions. These activities made students understand their social responsibilities and they were proud that they were involved in them.

Our students helping the girls in their studies
