

Student feedback forms and samples

Student feedback is collected every year through direct and indirect methods. Indirect methods include informal assessment of their classes by each teacher by paper feedback system and the formal method of data collection included common feedback form filled out by students of every batch through paper format in the beginning which was later shifted to online feedback system. The feedback papers collected from the students in the year 2016-17 & 2017-18 were kept in the IQAC room which was inundated in the flood of August, 2018. Earlier, in March, 2018, an online add-on service was added to the Library and Knowledge Centre website to collect the feedback. Students were asked to reach the library to submit their feedback on the courses, but the server that hosted the information was also destroyed in the flood. So, the google form system was finally fixed as the platform to collect the feedback every year. Some of the feedback given by students are of recent date as the form was re-shared in the Whatsapp group frequently.
