Mo: July

Class	Paper Code	Portions to be taught
II: B.com Computer Applications	Basic Numerical Skills	<p>Progressions:- Arithmetic Progression, n^{th} term, Sum of n term, insertion of arithmetic means, Geometric progression, n^{th} term, Sum of n terms, insertion of geometric means.</p> <p>Mathematics of Finance: Simple interest, Compound interest</p>
II M.com	Research Methodology	<p>Research:- Types of Research - hurdles faced by researchers.</p> <p>Process of Research: Introduction, research process; Selection of problem, setting of objectives, hypothesis, research design for descriptive, analytical empirical and experimental research; Sampling designs.</p>

Moth: August

Class	Paper Code	Portions to be taught
II. B.com Computer Application	Basic Numerical Skills	<p>Meaning & definition of statistics:- Definition of Statistics, characteristics of statistics, uses, scope and limitations of statistics.</p> <p>Statistical enquiry :- scope, primary data, secondary data, methods of data collection, types of enquiries.</p> <p>Frequency distribution:- classification, discrete & continuous series, formation of frequency distribution.</p>
II M.com	Research Methodology	<p>Survey:- Types, Sampling theories, Techniques of sampling, sample size determination, sampling bias, Sampling errors, case study, pilot study.</p> <p>Data collection:- Importance, methods, techniques, of collecting primary data, Interviews, Questionnaire and schedule.</p>

Moth: September

Class	Paper Code	Portions to be taught
II. B.com Computer Application	Basic Numerical Skills	<p>Graphs and Diagrams: Uses and importance, diagrammatic presentations, bar diagram, Pie diagram, Histogram, Ogives.</p> <p>Measures of central tendency :- Mean, Median, Mode, Geometric Mean, Harmonic Mean.</p> <p>Measures of Dispersion:- Skewness and Kurtosis:- Lorenz curve.</p>
II nd M.com	Research Methodology	<p>Measurement and scaling:- Levels of Measurement, Variables, attributes, Attitude measurement, Scaling - Types</p> <p>Error in measurement.</p> <p>Processing of data:- Editing, coding, classification, Tabulation.</p>

Moth: October

Class	Paper Code	Portions to be taught
II B.com Computer Application	Basic Numerical skills	Index Numbers:- Definition and uses, Laspeyres and Paasch's method, Consumer Price index numbers. Analysis of Time Series: Time Series, components of time series, trend & seasonal variations, Measuring trend and seasonal variations. Matrices:- Fundamental ideas, matrix operations, Matrix multiplications, simultaneous equations.
II M.com	Research Methodology	Analysis and Interpretation of data:- Data Analysis, Qualitative data analysis, Descriptive quantitative analysis. Measures of central tendency. Use of statistical software in data analysis.

Moth: November

Class	Paper Code	Portions to be taught
II B.com Computer Application	Basic Numerical skills.	Simultaneous equations, Solutions, Solution of quadratic equations. Set theory:- Meaning, Set operations, Venn diagram, elements of Co-ordinate system.
II M.com	Research Methodology	Writing and Presenting the report: Introduction types, planning report writing, Report writing styles, Format of a research report; Preparation of the Research report. Report writing stages. Documentation- styles.

Moth: December

Class	Paper Code	Portions to be taught
II Bcom Computer Applications	Quantitative Techniques for Business	Quantitative Techniques: Introduction, meaning and definition, classification of QT, QT and other disciplines such as Mathematics, applications of QT in business. Correlation: Measure of relationship, meaning & definition of correlation, methods of correlation, rank correlation.
II Bcom FINANCE	Financial Accounting BCM2B02	Single entry system of Accounting: - Definition, objectives, advantages, limitations Determination of Profit or loss under single entry, Statement of Affairs / Capital comparison method, conversion method, Distinction between Balance sheet and statement of Affairs.

Moth: January

Class	Paper Code	Portions to be taught
II Bcom Computer Applications	Quantitative Techniques for Business	Regression Analysis: Measures of relationship assumptions, linear and non-linear regression types of regressions, determination of Simple linear regression. Fundamentals of Permutation and Combination and Set theory
II Bcom Finance	Financial Accounting BCM2B02	Ind AS/IFRS Complied Financial statements of companies (Ind AS): Preparation of final accounts under new format (SOP, SOCE and SOFP - excluding SOCF) - Treatment of adjustment items such as Corporate Dividend Tax - Transfer to Reserve - Provision for taxation - TDS on interest income - applied adjustment of interest.

Moth: February

Class	Paper Code	Portions to be taught
D Bcom Computers Applications	Quantitative Techniques for Business	Fundamentals of permutation and combination and set theory. Theory of probability: concept, meaning and definition, approaches, Theorems, addition and multiplication, conditional, inverse, Bayes theorem. Theoretical distribution, Binomial distribution.
D Bcom Finance	Financial Accounting BOM2B02	Convergence to International Financial Reporting Standards: Meaning, need and importance, Role, component, process, conceptual framework and its contents, Definition, criteria or principles of recognition, measurement, presentation and disclosure, convergence to IFRS, Emergence of IFRS.

Moth: March

Class	Paper Code	Portions to be taught
D Bcom Computers Applications	Quantitative Techniques for Business	Poisson Distribution, normal distribution, features and properties, standard normal curve. Testing of hypothesis: Statistical inference, meaning and types of hypothesis, formulation. Non parametric test, χ^2 test, F-test, Analysis of variance.
D Bcom Finance	Financial Accounting BOM2B02	Company Accounts, Issue of shares, Employee stock option scheme, Types of shares, Private Placement, Shares issued for consideration, Module III - Accounting for issue of debentures, definition, types, Issue for consideration other than cash.
