

TRAINING ON MUSEUM RENOVATION

11/01/2017

Museum renovation efforts are usually taken every year to ensure the conservation status of each antique object. We collected new artifacts to be added to the museum . Students and well wishers of the College donated the artifacts and the artifacts included the different types of household articles and vessels, agricultural implements, fishing tools, coins, camera. Some of these artifacts presented in the museum were used traditionally in the households of Kerala. On possible occasions, we conduct exhibitions after the renovation of the museum. This year, 15 students of the department have participated in the Museum Renovation training given by the teachers of the department. The retired staff of the Department, Ms. Susan Koshy & Sr.Salomy also helped the students to manage the museum. The duration of the training was one week. Students would get an orientation to pursue their higher studies in Museology through this programme.
